Specialty High Die Notepads

THIS PROJECT ILLUSTRATES HOW "HIGH DIE" CUTTING CAN TAKE SOMETHING AS SIMPLE AS A STANDARD PAD, AND TURN IT INTO A UNIQUE PIECE SURE TO GRAB THE RECIPIENT'S ATTENTION. TO LEARN HOW YOU CAN INCORPORATE HIGH DIE CUTTING, OR ANY OF OUR OTHER SPECIALTY FINISHING TECHNIQUES INTO AN UPCOMING PROJECT, CONTACT YOUR BINDAGRAPHS SALES REPRESENTATIVE TODAY.

How Did They Do That?

- ① At speeds up to 100,000 pieces per hour, Bindagraphics' High Die is a great way to create custom shapes, like the fish in this project.
- ② High Die operates like a giant cookie cutter, with a lift pushing a stack of material up through a custom die, removing surrounding material from the desired shape.
- ③ High Die can be used on anything from pads to brochures to booklets to faux credit cards. Say goodbye to those nasty nicks that cause complaints with standard die cutting!
